CHAMBERLAIN'S COUGH REMEDY

This is not only one of the best and most efficient medicines for coughs, colds, croup and whooping cough, but is also pleasant to take, which is important when a medicine must be given to young children. Chamberlain's Cough Remedy has been in use for many years and has met with much favor wherever its good qualities have become known. Many mothers have given it their unqualified endorsement. Wm. Scruby, Chillicothe, Mo., writes, "I have raised three children, have always used Chamberlain's Cough Remedy and found it to be the best for coughs, colds and croup. It is pleasant to take. Both adults and children like it. My wife and I have always felt safe from croup with it in the house." Chamberlain's Cough Remedy contains no opium or other narcotic.

CAN USE MORE WHEAT FLOUR NOW

A REDUCTION MADE IN THE USE OF SUBSTITUTES TO 20 PER CENT

ONLY 20 PER CENT MIXTURE

New Mixed Flour Will Be Made to Be Known as the Liberty Flour

The fifty-fifty rule of the Food Administration has been changed and until further notice flour may be bought by consumers with substitutes in the ratio of four pounds of ordinary wheat flour to one pound of substitutes, or the flour may be bought already mixed with the substitutes at the mill and will be known as Victory Flour.

The recent careful survey of the Food Administration of the United States, France, England and Italy, of the food resources of the 220 million people fighting against Germany, shows that to maintain enough supplies and necessary reserves against disaster, there must be maintained in all countries a conservation of wheat flour during the coming year.

It has been agreed that the wheat bread of the Allies shall contain 20 per cent of other grains than wheat, and it is only just that we should bear our share of this saving and that our bread, at least, should be universal with those who are suffering more greatly from the war than ourselves.

Distribution and transportation conditions in the United States render it necessary to rely largely on the voluntary action of our home to enforce this mixture. The "Victory Bread" so made is wholesome and there is no difficulty in preparation.

For this purpose regulations have been issued by the United States Food Administration effective September 1st, providing:

First, for the preparation and marketing by the manufacturers of a mixed flour complying with the international regulations which will be available for purchase by the household.

Second, in regulations covering the case where straight wheat flour is sold by retailers, 20 per cent of other cereal flours must be sold at the same time.

Third, requiring that all bakers' bread shall contain 20 per cent of other cereals, and the Food Administration relies upon the householders of the country to mix at least 20 per cent of the substitute cereals into the wheat flour at home for all uses. Corn meal for the use of corn bread should be purchased separately from combination sales.

Ready mixed flour shall be known as "Victory mixed flour" and may be

It is desired by the Food Administration to insure a supply of ready mixed flours on the market and to have millers and dealers of all kinds encourage the use and sale of this flour so that the country may be on a mixed flour basis without the necessity of retailers making combination sales of flour and substitutes.

The new regulations supercede the fifty-fifty rule. The retail dealer selling standard wheat flour is required to carry in stock either barley flour, corn meal or corn flour and with every sale of wheat flour must sell a combination of some one or more of these in the proportion of one pound of substitutes to each four pounds of wheat flour. No dealer may force any other substitutes in combination upon the consumer, and these substitutes must conform to the standards fixed by the United States Food Administration.

The foregoing rules apply to all custom and exchange transactions as well as sales of flour to farmers unless modified by special announcement of the Federal Food Administrator of the state.

Bakers will be required to use one pound of substitutes to each four pounds of wheat flour in all bakery products including bread. The use of the name "Victory" will be allowed in all products containing the above proportion of substitutes.
